ROBY SETIADI

IT Support

Bekasi, West Java, Indonesia | +62-878-2683-4530 | robysetiadi077@gmail.com | linkedin.com/in/roby-setiadi

PROFESSIONAL SUMMARY

IT Support professional with a background in Computer Network Engineering and hands-on experience managing IT infrastructure within small teams, spanning website development, server administration, and end-to-end technical support. Known for taking initiative beyond the formal scope of the role, including leading development of AI-assisted certificate and finance websites, building an internal Samba and File Browser-based file server, and developing a certificate validation system. Holds certifications in networking (MTCNA) and cloud computing (AWS), with strong hardware, software, and network troubleshooting skills.

WORK EXPERIENCE

IT Support

Bina Prestasi Gemilang | *Bekasi, Indonesia* | *November 2024 - Present*

- Performed troubleshooting and maintenance of computers/laptops to ensure devices functioned properly.
- Developed simple internal applications using Microsoft Access to support business needs.
- Built and managed WordPress-based websites, including design, content management, and functionality improvements.
- Resolved minor Wi-Fi connectivity issues, such as restarting routers during disruptions.
- Led the development of an AI-assisted certificate generation website, from feature planning through implementation.
- Built and managed an internal Samba and File Browser-based server for file sharing among employees, taking on broader IT responsibilities given the company's small team size (fewer than 10 employees).
- Led development of an AI-assisted finance website to support internal financial record-keeping and management.
- Developed a certificate validation feature to verify the authenticity of issued certificates.

Surveyor

PT. Bartel Armada Logistik | *Bekasi, Indonesia* | *March 2024 - Present*

- Collected accurate data on the condition, size, and specifications of goods for inspection reports.
- Documented survey results through photos and videos; prepared detailed condition reports on goods.
- Communicated with related parties such as clients, suppliers, and shippers to ensure smooth delivery and handling procedures.

Team Leader, Digital Marketing & IT Support

PT. Arief Pratama Sobat Megah | *Jakarta, Indonesia* | *February 2023 - July 2023*

- **Digital Marketing (Team Leader):**
- Led a creative team in producing graphic designs and video edits for marketing campaigns.
- Coordinated tasks, deadlines, and visual output quality across the team.
- Reviewed assets prior to publication and reported progress to management.
- **IT Support:**
- Provided remote software troubleshooting for WFH/WFA employees, resolving application errors, software installation, system compatibility, and computer performance issues.
- Supported remote WordPress website maintenance (plugin updates, data backups, basic content edits).

IT Support

PT. Imos Indonesia | *Jakarta, Indonesia* | *March 2021 - May 2021*

- Built a website using WordPress with an SQL database.

- Provided technical support for hardware, software, and network issues to employees.
- Diagnosed and resolved issues related to hardware, software, and networks.
- Achievement: Completed the website within 1 month.
- Achievement: Reduced recurring hardware, software, and network issues.
